MEMORANDUM FOR: Chief, Records Integration Division, DD/P
ATTENTION : Cryptic Reference Unit
SUBJECT : Request for Cryptonyms

1. It is requested that the cryptonyms listed below be cancelled and new ones be assigned in their place:

2. It is also requested that the cryptonym  be cancelled since the program to which it is assigned is being compartmented within another program.

3. Although no compromise has occurred, a great many people in the intelligence and military communities have frequent access to these cryptonyms. Since the turn-over rate of these people is quite high and the sensitivity of the programs involved dictates maximum security, it is felt that they be changed periodically. It is particularly propitious that they be changed at this time since the report control manuals for each of these programs are in the process of being changed.

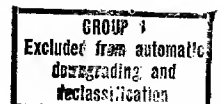

NRO review(s) completed.
